March 19, 2020

To Our Valued Customers:

During these unprecedented times we are working to balance the needs of our Employees, Communities and Customers. We have been, and will continue, to monitor the recommendations of the CDC as well as the Federal and State Governments. At this time, we have decided to continue to service our loyal customers and to continue to support our employees and the 27 communities we serve. We would like to outline the steps we are taking to do our part in keeping our employees safe, while ensuring our customers have the tools needed to continue providing essential needs to the community:

- Increased cleaning in high touch areas, with approved disinfectants.
- Employees have been advised to stay home if they feel ill, have recently been traveling, or believe they may have been exposed to others that have been sick.
- Any employee that is not comfortable coming to work or is considered “high risk” has been given the option to use their paid time off to stay home.
- We have implemented social distancing practices throughout our company.
- We have setup drop points at all of our wholesale customers, to limit contact.
- We have asked all of our outside sales force to discontinue sales calls to minimize exposure.

To limit contact within our stores, our customers have the ability to call ahead with orders, or visit www.napaonline.com and select the free pickup in store in store option.

As we navigate these uncharted waters, we appreciate your continued understanding and support. At Coastal Auto Parts we value our Employees, Customers and Communities above all else. We are here to help. During these times remember the real heroes of our Communities: The Health Care Providers, Police Officers, Fire Fighters, Educators, Lawmakers and others working around the clock in this time of Crisis.
