## PROMOTIONS !!

Payson  
McDonough

Marc Rondeau

Please give a BIG shout out to Payson McDonough and Marc Rondeau for their promotions to the position of Warehouse Foreman. This new position involves opening/closing the warehouse, leading the warehouse team to complete tasks, ensuring that the environment is clean and safe, assisting Ricky & Tanner with accomplishing daily goals and helping mentor new hires.

# CAP NEWS - Local SPOTLIGHT

Vol. 2 – 11/01/2023

Every year Pathway Vineyard Church does a Car Care event to winterize the cars of single women in the community. They replace filters, top of fluids, change out wiper blades. The church has three locations: Lewiston (buys from Lisbon NAPA), Brunswick (buys from Topsham) and Gray.

Josh donated Napa hats to Brunswick and here is a shot of some of the group that worked on 40 cars. The church in Lewiston serviced 95 cars, & in Gray serviced 15 —150 cars total for all three locations. It's an awesome partnership with Topsham and the guys on the counter seem to look forward to it each year.

## Quick Results & Standings

| Driver          | Start | Finish          | Standings |
|-----------------|-------|-----------------|-----------|
| Chase Elliott   | 14    | 17              | 17th      |
| Ron Capps       | No. 4 | def. in Round 1 | 4th       |
| Brad Sweet      | -     | -               | 1st       |
| Christian Eckes | -     | -               | 5th       |
| Tanner Reif     | -     | -               | 4th       |

## CHASE ELLIOTT NASCAR

Driving the No. 9 NAPA Auto Parts Chevrolet, Chase Elliott [led more than 80 laps](#) of the NASCAR Cup Series race at Martinsville Speedway Sunday before finishing 17th. The 2020 champion started 14th and finished Stage 1 in 13th. He was 15th at the end of the second stage, and his team made adjustments to improve the handling of the No. 9 during the stage break. Crew chief Alan Gustafson later made the strategy call for Elliott to stay out on track during a Stage 3 caution while competitors pitted, allowing the No. 9 to cycle to the lead. Elliott led for 83 laps but needed a late caution to refuel. He was eventually forced to make a green-

flag pit stop, losing track position. The No. 9 crossed the line in 17th. The final race of the season is Sunday, November 5 at Phoenix Raceway.

## RON CAPPS NHRA

Ron Capps proved in NHRA Nevada Nationals qualifying that [the NAPA team was ready to go rounds](#) on Sunday and bounce back after a first-round loss in Dallas. Instead, they found themselves packing up early again. With four qualifying sessions scheduled, Capps made a strong baseline run in the first session before crew chief Dean 'Guido' Antonelli tested more aggressive tunes. Capps continued to power down the strip with quick times, eventually posting the second-quickest pass of the final session. In his first-round match-up, Capps led the way most of the race but lost traction at 600 feet. His competitor won with just a .001-second advantage. Capps remains fourth in the standings heading into the NHRA Finals at Pomona November 10-12.

*Activation:* Capps attended a fun, casual dinner at Buca di Beppo restaurant on Thursday evening prior to the October Las Vegas NHRA event. Capps joined a group of NAPA Auto Care owners from the Las Vegas area along with NAPA Los Angeles DC personnel. He spoke one-on-one at each table, posed for pictures and signed autographs.

On Monday evening, he attended a dinner with NAPA Montreal executives and key Canadian personnel from FIX Auto. He followed that up with an appearance at the NAPA Hawaii DC Luau that saw some 270 NAPA customers and NAPA personnel make the trip to Las Vegas from the Hawaiian Islands.

## INTRODUCING THE NEW PROLINK HOMEPAGE!

The screenshot shows the NAPA PROLINK homepage. At the top, there's a navigation bar with links like Products, Estimate, Services, Resources, Orders, Lists, and Quick Labor lookup. Below this, the 'Current Vehicle' section displays a 2020 GMC Terrain with a 3.6 L 403 CID V6 Diesel engine. A search bar allows users to find products by VIN, license plate, or keyword. On the left, there's a 'Job Type Search' section with checkboxes for various services like A/C Compressor, Air Filter, and Battery. On the right, a 'Shopping Cart' is visible, showing items like 'Dupli-Color Paint 1K' and 'Clear Extreme Matte'. The bottom of the page features a 'Search Queue' with filters for A/C Kits, Air Filter, Ball Joint, and Battery.

### HIGH IMPACT

#### WHAT TO KNOW

- **Nov 3** > New PROLink Homepage will start rollout
- 200 exclusive new PROLink users will get new homepage first
- Monitoring KPI's, testing, gather feedback
- **Nov 10 – Nov 17** > Expand rollout to remaining new PROLink Users
- **Nov 30** > Opt-out 500 customers from Pilot DC's

#### WHAT TO DO

1. Take PROLink [training](#)
2. Encourage your customers to opt-in and use new PROLink
3. Show your customers the new features
4. Provide feedback through PROLink
5. Check [DC Bulletin 23-718](#) for complete details

#### QUESTIONS

- Contact [Bob Hammer](#)
- Use the Feedback button on PROLink

## **BATTERY RECYCLING: GOOD FOR YOUR WALLET & THE WORLD**

The first step of recycling an old car battery involves returning the core of your original battery to a participating NAPA Auto Parts store. Certain used auto parts, like batteries, can be remanufactured for resale, which retains some of their value even when a part is no longer operational. This core charge (also called a core price) listed by aftermarket retailers is a type of deposit that encourages shoppers to return their used parts. When you bring a dead battery back to a NAPA Auto Parts store with a receipt showing the core charge, the store will refund that amount, which is typically \$18 to \$27.

But saving money isn't the only reason to recycle car batteries. There are many environmental regulations around disposing of a car battery because they contain highly toxic materials and heavy metals like nickel, mercury, lead and cadmium. Inside nearly every automotive battery are lead plates that are submerged in a mixture of sulfuric acid. While today's standard is lead-acid sealed batteries, the growing consumer market of hybrids and EVs is generating more demand for lithium car batteries, producing a new type of waste.

If you are searching for where to recycle car batteries, nearby city or county recycling centers may accept the battery for a nominal fee or at no charge. If you follow the laws in your state for old car battery recycling, your original battery should end up in a hazardous waste facility where chemicals are properly drained, lead is removed, plastic is recycled and anything salvageable is turned into part of a new battery.

The best solution for how to dispose of old car batteries is to check at your nearest NAPA Auto Parts store to see if they can accept them. Most auto parts stores also have the ability to send used car batteries to recycling facilities, as well as lawnmower batteries, motorcycle batteries and marine batteries. Keep in mind, you must transport a used automotive battery with great care and attention. Our experts recommend carefully placing it inside a thick plastic bag to prevent leaking in your trunk or truck bed. It is critical to keep the battery upright by securing it in the cargo area.
